MethoCult™ methylcellulose-based medium should be dispensed into tubes or 35 mm Culture Dishes (Catalog #27100) using a 3 cc Syringe and Blunt-End Needle, 16 Gauge (Catalog #28110). This is for safety reasons and due to the viscosity of methylcellulose-based medium.

3 cc Syringes should be used with Blunt-End Needles, 16 Gauge purchased from STEMCELL Technologies to ensure that they are compatible. STEMCELL Technologies cannot guarantee that 3 cc Syringes will be compatible with blunt-end needles from other suppliers.

3 cc Syringes and Blunt-End Needles, 16 Gauge are single-use only. Dispose according to standard procedures for biohazardous materials.
